2010 is a special year for the Cancer Council Relay For Life in Perth as it moves to a brand new venue and celebrates its 10th Anniversary. QV.1 Fitness Focus

With Summer just around the corner, NOW is the time to step up your exercise routine to make sure you're in peak shape for the hot weather.

If you've been putting off your workout because its "too busy" at the gym, take advantage of the quieter times in the morning to do your workout. Obviously lunchtimes and after work are the busiest times, but if your workplace allows, then head on over mid morning - you'll find the gym much quieter and you'll have a happier workout. Or wake up that little earlier and enjoy the extra sunshine in the mornings and do your work out before work - what a way to start the day!

We don't mean to nag, but please remember the following tips to enable everyone to enjoy their gym workouts:-

- ❖ Make sure you swipe your Fuller Fitness Membership card when you arrive (even if you are only using the changeroom facilities, you still need to swipe your membership card),
- ❖ Remember you must have a towel with you each time you work out and use it on the equipment you use as a barrier between your body and the equipment,
- ❖ Please wipe down each piece of equipment after you've finished using it,
- ❖ When you have finished with each piece of equipment, please make sure you remove your towel - leaving your towel behind gives the impression that you are still using the equipment (which holds up other member's workouts),
- ❖ If you are unsure on how to use any of the equipment, please ask one of the Fuller Fitness staff who will be more than happy to provide assistance.
